### **Bambakofi Nursery School Commitment**

*Improved learning environments will make better students. The school has established resource centres where teachers are trained in child-centered methodologies and can access the latest materials. It has designed and introduced new curricula successfully. School management is made more accountable. Better examination results, more confident, qualified and committed students and teachers, upgraded facilities, more responsive administrators and positive reactions from parents bear testimony to Bambakofi's commitment to making schools better.*

*Establishing quality standards in curricular and extra-curricular activities, academic performance, governance and physical facilities, Bambakofi Academy will promote creativity in problem-solving, moral reasoning, cultural pluralism and active learning. Information technology laboratories, playing fields, multipurpose hall and library provide space for self-discovery. To furnish dynamic environments in which can be formed the best minds and bodies.*

*As the saying goes; All work without play makes Jack a dull boy, we encourage play as sport is another area important to personal development and physical and mental well being.*

*We positively encourage the speaking of English, good manners, respect for everyone and property and an attitude of self-discipline and trust. We nurture and build the children's self esteem and confidence.*

**FOR QUALITY EDUCATION ENROL YOUR CHILD IN  
THE BEST SCHOOL IN THE ZONE**
